

# History of Komta

**EVERYTHING  
YOU NEED TO KNOW**

## **Headlines:**

- The beginnings
- The present
- The future plans
- What's new? (2021/08/01)

## The Beginnings

In the beginning, Komta was a YouTube channel with Photomanipulation videos. Later, the owner of the channel, Thomas, started working on digital drawings.

Thomas later created an Instagram page (@komtagraphics) where his drawings were uploaded.

In January, two people (WeDee and V.Zs.) formed the Komta Group, which dealt with graphic design.

The very first Fiverr gig was created in the second half of January, and from there Komta deals with the graphic designs on Fiverr.

Komta is not just an average group with a side goal to build a graphic designer community, we want to grow into a company later.

Future plans include dealing with other software.

(See "The future plans" headline for more information).

## The Present

Komta Fiverr features are currently paused but it will restart soon.

### *-Join the group*

You can join Komta on the "Jobs" tab of Komta's website to help build the largest graphic designer community.

We are looking for people who will join in just to have fun and be part of a fantastic community.

You can be a Social Media Designer,

-Design Our Social Media Post

or you can even be a Logo Designer.

-Design Logos For Customers

## The Future Plans

We have a lot of future plans. Our team's big goal is to make a company. The Komta Company.

We want to make a cool, clean website for our customers, where they can order our products. The company will deal with other services e.g. video filming, editing etc.

We want to promote the emerging talents, this is why we want to make our application where you will be able to upload your artworks.

We want to grow the biggest artist community in Europe.

It is important for us that the members of the community and the members of Komta, have a good time.

It is also important for us that our customers are satisfied with our services.
