

-Komta Update-

Whats new?
(2023/04/13)

New Colors:

One of the most noticeable changes is our new color scheme. We've moved away from our old blues and have introduced a new color palette with new shades. The new colors are fresh and modern, giving our website a vibrant and dynamic look. This change was made to better reflect our brand and make our website stand out.

New Graph:

We've also updated our website's graph to make it more user-friendly. Our new graph is not only visually appealing but also easier to understand.

New Buttons:

We've added new buttons throughout the site to make it easier for users to navigate. The buttons are more prominent and eye-catching, making them easier to find and use.

Better Everything:

Overall, our new website design is better in every way. We've improved the layout, made it more intuitive, and streamlined the user flow. Our website is now faster, more responsive, and works seamlessly on all devices.

In conclusion, we're excited about the changes we've made to our website. The new design is not only visually appealing but also more user-friendly, making it easier for our users to find what they need. We hope you enjoy the new website and that it provides a better experience for you. Thank you for your continued support!

FOR THE LOVE OF KOMTA
